THE QUARTER MILE™ MATH

Math Practice Software Kids Love!™

How the Software Works

You always race
in the left lane.

Correct answers
accelerate your car or
riderless horse.

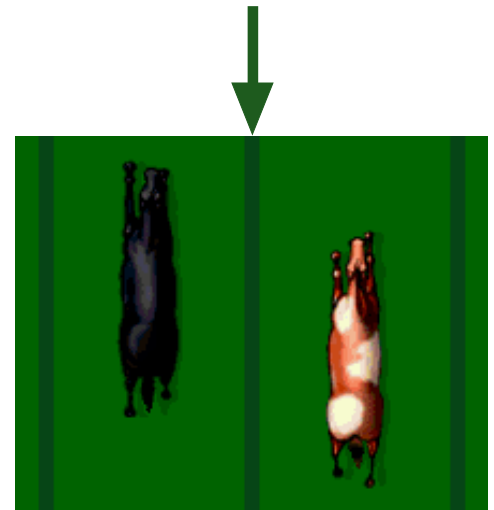

Your competitors,
in the other 5 lanes, are
replays of
your previous
best 5 races.

You can
switch between
riderless horses
and cars

Lane dividers
scroll
faster and
faster

Math
problems
appear
one at a time

Students see
their improvement
race after race.
The self-competitive
format is
a huge motivator
for all ages and abilities—
K through adult.

Plus, it builds
confidence
quickly!

THE QUARTER MILE™ MATH

Math Practice Software Kids Love!™

Benefits

1. Students' **computer time is highly productive** with this program; they will do a lot of math in a short period of time in very focused topics!
2. Students **learn at their maximum rate** with this highly motivating format. No other program enables students to do as much math per minute for such extended periods of time.
3. Uniquely effective for the **broadest range of students:** on grade level, special ed., gifted, even adults!
4. **Builds confidence quickly.** This is so important in doing math.

Features

1. **Simple format—easy to use.**
2. **Self-competitive, non-intimidating format** is an award-winner.
3. The "**Student Scores**" **review screen** shows every topic a student has been in, their progress chronologically, and more valuable information. (Available only with the "Deluxe" version.)
4. Both parents and students can see **measurable, quantifiable improvement** race after race. In fact, the *Quarter Mile* can detect improvements that aren't humanly detectable and give positive reinforcement for it!
5. Very specific topics **meet students' individual needs.**
6. **Appeals equally well to older and younger students.**
7. **Both girls and boys, teens, and adults LOVE** the format (see 150+ homeschool testimonials on www.TheQuarterMile.com).
8. **Design integrates all major learning modalities—**visual, auditory, and tactile—simultaneously in a meaningful, educational way.
